

Medication Reconciliation Made Easy

Ways to obtain patient's home medications when patient is unsure:

- Ask family members to bring medication bottles from home
- Check Net Access
 - Medication reconciliation form from past admission
 - Previous admission physician notes
- Ask patient for name and/or phone number of pharmacy where they get their medications
 - If pharmacy phone number unknown, ask for location and check internet website of pharmacy for phone number
 - Call patient's pharmacy and ask for pharmacist, be sure to identify yourself and reason for calling
- If patient from skilled nursing facility, a medication list is always available
 - If list not in chart, call nursing facility

Need name of medication, dose, route, frequency, and when last dose was taken.
